Note: It is the installer/consumers responsibility to ensure:

- Product is not damaged prior to installation.
- The product has all its components.
- Water Supply Requirements:
  If the pressure exceeds 550kpa, an approved pressure limiting device must be installed. If the water temperature exceeds 75˚C, an approved tempering valve must be installed.
- Shower may not be suitable for use with gravity-fed water heaters.
- Failure to comply with above may avoid all warranties.
